STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/ 2/

Total leaf tobacco stocks smaller than a year ago.

Leaf tobacco inventories of dealers and manufacturers in the United States and Puerto Rico totaled 4,039 million pounds as of July 1, 1973. This was 147 million pounds less than the figure a year earlier. Smaller stocks of flue-cured and cigar filler accounted for most of the decline. Stocks of foreign-grown tobacco continued to increase. About 28 million pounds, consisting mostly of Maryland and Puerto Rican tobaccos were marketed by growers during the April-June quarter.

Stocks as of July 1, 1973 included 707.9 million pounds (farm-sales-weight) of leaf tobacco under Government loans--264 million pounds below the previous July 1. Large sales of flue-cured accounted for the biggest share of the decline. The breakdown on current loan stocks was:

<u>Million pounds</u>	
flue-cured	402.3
burley	284.3
fire-cured	3.1
dark air-cured	12.9
cigar leaf	5.3

1/ Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks. (See table in body of report for reported weight basis.) This report is issued quarterly.

2/ All Government loan stocks are reported by growers' cooperatives which are considered dealers for stocks reporting purposes.

CIGARETTE LEAF STOCKS

Domestic types decline, foreign stocks increase.

Stocks of flue-cured tobacco on July 1, 1973, totaled 1,749 million pounds--161 million below reported holdings last year. The 1972 marketing year for flue-cured ended on July 1 with total disappearance indicated at 1,183 million pounds. Domestic consumption at 664 million pounds was about the same as the previous year. Exports jumped to 519 million pounds compared to 480 million in 1971-72.

Burley stocks this July 1 were reported at 1,384 million pounds--6 million below the holdings of July 1, 1972.

Maryland inventories totaled 59.6 million pounds--1 million less than last year. Auction sales of the 1972 crop ended on June 15, 1973, with 23.5 million pounds being sold.

Foreign-grown cigarette and smoking tobacco stocks were reported at 454 million pounds on July 1, 1973. This was 21 million more than the inventory a year earlier.

DARK TOBACCO STOCKS

General decline continues.

Stocks of fire-cured leaf, reported at 73.7 million pounds on July 1, 1973, were just above holdings on the previous July 1. Fire-cured stocks on this July 1 were as follows: Virginia, 8.7 million pounds; Eastern District Kentucky and Tennessee, 54.3 million; and Western District, 10.7 million.

Dark air-cured holdings of 51.9 million pounds were 2.3 million below the July 1 inventories of last year. Stocks this year by types were: One-Sucker, 30.7 million pounds; Green River, 17.8 million; and Virginia sun-cured, 3.5 million.

CIGAR LEAF STOCKS

Domestic stocks decline, foreign-grown holdings increase.

Inventories of all domestic-grown cigar tobacco, including Puerto Rican, totaled 145.9 million pounds on July 1, 1973. This was 28.1 million less than the holdings of last July 1. Wisconsin and Georgia-Florida Shade had larger inventories, but all other types declined. Delivery of the 1972-73 crop of Puerto Rican tobacco was completed during the quarter. Stocks of foreign-grown cigar leaf as of July 1 amounted to 114.2 million pounds--20.4 million above holdings of a year earlier.

Inventories of cigar filler types on this reporting date totaled 76.2 million pounds--down 26.1 million from the previous July 1. Individual type totals were: Pennsylvania Seed-leaf, 57.9 million; Ohio filler, 7.6 million; and Puerto Rican, 10.6 million pounds.

Cigar binder stocks totaled 52.0 million pounds on July 1, 1973--no change from the same date last year. Stocks by types were: Connecticut Broadleaf, 5.4 million pounds; Connecticut Valley Havana seed, 2.2 million; Southern Wisconsin, 21.5 million, and Northern Wisconsin, 22.8 million pounds.

Shade-grown cigar wrapper stocks as of July 1, 1973, totaled 17.7 million pounds, consisting of 10.7 million pounds of Connecticut Valley Shade and 7.0 million pounds of Georgia-Florida Shade. The marketing year which ended on July 1 indicated a total combined disappearance of 11.8 million pounds for these types. Exports were 3.2 million pounds, giving a domestic disappearance of 8.6 million.

Large gains were recorded in stocks of Indonesian and Dominican Republic cigar leaf. Mexico and the Philippine Islands were the only countries showing declines. See table 2 for complete listings.

TOBACCO SHEET

Leaf in sheet declines.

Stocks of leaf represented in inventories of "tobacco sheet" totaled 25.4 million pounds (reported weight) compared with 29.9 million a year earlier. Of the total in "sheet" this July 1, 23.5 million pounds were for use in cigarette and smoking tobacco, and 1.9 million for cigar binder and wrapper.

1/ Types 11-37 are reported on the basis of packed weight.

2/ Farm-sales-weight equivalent based on unstemmed sweated weight factor.

3/ The instructions for reporting unstemmed cigar-leaf of the domestic types require that dealers and manufacturers indicate the weight basis on which the tobacco is reported, namely, farm-sales-weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of average factors reflecting the percentage reported each quarter in each of these three categories.

1/ Annual disappearance for a type is calculated for the marketing year established for that type, the year beginning on the quarterly reporting date on which stocks of the type are at their lowest point and before the new crop enters stocks.

2/ The carryover stocks have been tabulated separately according to broad groupings of ownership, namely manufacturers, under loan, and all other. "Other" reflects stocks reported by tobacco dealers and stocks held in the United States by representatives of foreign manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export.

3/ Subject to revision.

4/ August 1 estimate, U. S. Crop Reporting Board, SRS.

Detail may not add to total because of rounding.

1/ Totals include stocks of leaf reported in tobacco sheet. See separate reportings in table 4.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis.

3/ This table should be considered as representing only the approximate quantities owned respectively by dealers and manufacturers. The quantities shown as owned by manufacturers represent domestic manufacturers only. All Government loan stocks are dealers' holdings.

4/ Includes stocks on the island of Puerto Rico.

5/ For explanation of stocks included in this classification see footnote 2 on page 7.
